

# SEXUAL behaviors

## in South Dakota High Schools 2013

### SEXUAL BEHAVIORS (by grade)

### HIV/AIDS (by grade)

### Why is this problematic?

By the time young people graduate from high school, almost two thirds have had sex. Nearly 40 percent of sexually active students did not use a condom the last time they had sex, and one in five drank alcohol or took drugs before their last sexual intercourse<sup>1</sup>.

### SEXUAL BEHAVIOR TRENDS

Percentage of students who had sexual intercourse with one or more people during the past three months

Among students who had sexual intercourse during the past three months, the percentage who drank alcohol or used drugs before the last sexual intercourse

### HIV/AIDS TRENDS

Percentage of students who had ever been taught in school about AIDS or HIV infection

### What works?

- Strategies for preventing teenage pregnancy include: better health education and more comprehensive health services<sup>2</sup>.
- Strategies for preventing HIV and other STDs include: better health education, more comprehensive health services and more supportive policies<sup>3</sup>.
